

New Jersey Plastics Policies — Local and Statewide

● **Bag, Straw, and Polystyrene Ban**

- All retail and food service businesses are banned from distributing most single-use plastic and paper bags.
- Plastic straws are required to be requested by customers prior to distribution.
- Polystyrene foam food service products are banned.
- Annually reduces 8.8 billion single use disposable bags from waste stream.
- Saves businesses money by not distributing disposable bags.
- Saves municipal governments waste hauling and extending life of landfills.
- Reduces toxic exposure of plastics and helps our health.
- Statewide bill ([S865/A1978](#)) went into effect May 2022, pre-empting all local ordinances.

● **Packaging and Paper Product Stewardship Act (Extended Producer Responsibility – EPR)**

- Puts responsibility of manufacturer to reduce packaging by 50% over 10 years.
- Reduces 14 categories of toxics from packaging, thereby improving our health and medical expenses.
- Saves municipalities and tax payers money from waste hauling and puts burden on manufacturer.
- Increases recyclability of packaging.
- Addresses environmental injustices by reducing pollution to overburdened communities.
- Eliminates “greenwashing” and loopholes of “chemical recycling”.
- Generates new jobs with new sustainable technology development.
- Three (3) municipal resolutions passed in 2025. Statewide bill ([S3398/A5009](#)) now being voted on by the NJ legislature.

● **Skip the Stuff – Model Ordinance (Jersey City); Model Resolution (Atlantic Highlands)**

- No single-use disposable cutlery and condiments can be distributed for take-out orders and no single-use disposable foodware can be distributed for dine-in with seating capacity of less than 25, unless requested by customer.
- Saves businesses money by not providing unnecessary cutlery and condiments that usually go unused into the waste stream.
- Reduces clutter for customers that usually do not use single-use disposable cutlery or condiments.
- Reduces toxic exposure during lifecycle of plastic thereby helping our health.
- Twenty-four (24) municipal ordinances and one (1) resolution passed by 2025. Statewide bill ([S3195/A3195](#)) now being voted on by the NJ Legislature.

● **Construction Dust Containment**

- Requires containment procedures when cutting PVC pipes.
- Reduces exposure of microplastics that would otherwise get into our air, waterways and land.
- Eighteen (18) municipal ordinances passed in 2025 with NJ statewide bill being drafted.

● **Shipping Box Size**

- Prohibits shipping box greater than two times the volume of the product being shipped.
- Senate passed [S226](#) in June 2024. NJ Assembly bill (A4116) now being voted on by legislature.

● **Testing and Remedial Action of Microplastics in Drinking Water**

- Department of Environmental Protection and Board of Public Utilities to conduct feasibility and benefits study on microplastic removal technologies.
- Requires action to be taken if microplastics are found in drinking water per testing requirements.
- Statewide bill ([S3283/A1481](#)) passed in January 2024.
