

New Jersey Plastics Policies Local and Statewide

● Bag, Straw, and Polystyrene Ban

- All retail and food service businesses are banned from distributing most single-use plastic and paper bags.
- Plastic straws are required to be requested by customers prior to distribution.
- Polystyrene foam food service products are banned.
- Annually reduces 8.8 billion single-use disposable bags from waste stream.
- Saves businesses money by not distributing disposable bags.
- Saves municipal governments waste hauling and extending life of landfills.
- Reduces toxic exposure of plastics and helps our health.
- Statewide bill ([S865/A1978](#)) went into effect May 2022, pre-empting all local ordinances.

● Packaging and Paper Product Stewardship Act (Extended Producer Responsibility – EPR)

- Puts responsibility of manufacturer to reduce packaging by 50% over 10 years.
- Reduces 14 categories of toxics from packaging, thereby improving our health and medical expenses.
- Saves municipalities and tax payers money from waste hauling and puts burden on manufacturer.
- Increases recyclability of packaging.
- Addresses environmental injustices by reducing pollution to overburdened communities.
- Eliminates “greenwashing” and loopholes of “chemical recycling”.
- Generates new jobs with new sustainable technology development.
- Four (4) municipal resolutions passed in 2025. Statewide bill ([S3398/A5009](#)) now being voted on by the NJ legislature.

● Shipping Box Size

- Prohibits shipping box greater than two times the volume of the product being shipped.
- Senate passed [S226](#) in June 2024. NJ Assembly bill ([A4116](#)) now being voted on by legislature.

● Skip the Stuff – Model Ordinance (Jersey City); Model Resolution (Atlantic Highlands)

- No single-use disposable cutlery and condiments can be distributed for take-out orders or be distributed for dine-in with seating capacity of 10 or more, unless requested by customer.
- Saves businesses money by not providing unnecessary cutlery and condiments that usually go unused into the waste stream adding to coastal flooding in addition to landfill and incineration waste.
- Reduces clutter for customers that usually do not use single-use disposable cutlery or condiments.
- Reduces toxic exposure during lifecycle of plastic thereby helping our health.
- Over 60 ordinances and resolutions passed prior to state legislation.
- Statewide bill ([S3195/A5157](#)) goes into effect on August 1, 2026, pre-empting all local ordinances, as the strongest Skip the Stuff law in the country.

● Construction Dust Containment

- Requires containment procedures when cutting, drilling, or sanding dust-producing materials, including plastics, silica, fiberglass, pavers or chemically treated wood, etc.
- Reduces exposure of microplastics that would otherwise get into our air, waterways and land.
- Seventeen (17) municipal ordinances and four (4) resolutions passed in 2025.

● Testing and Remedial Action of Microplastics in Drinking Water

- Department of Environmental Protection and Board of Public Utilities to conduct feasibility and benefits study on microplastic removal technologies.
- Requires action to be taken if microplastics are found in drinking water per testing requirements.
- Statewide bill ([S3283/A1481](#)) passed in January 2024.
